Summary

Computer Science Engineering graduate with experience in AI/ML, full-stack development, and test automation. Skilled in Python, Java, JavaScript, Flask, React, computer vision, and SQL. Developed machine learning and web applications and presented research on real-time pothole detection using YOLOv12 at ICIPETC-26.

Education

College of Engineering Pathanapuram 2022 – 2026
B.Tech in Computer Science Engineering | CGPA:7.32/10 *Pathanapuram, Kerala*

G.H.S.S. Anchal West 2020 – 2022
Higher Secondary | Score: 9.2/10 *Anchal, Kerala*

Experience

EDU TANTR Jul 2026 – Sep 2026
AI & ML Intern

- Completed an AI/ML internship, gaining practical exposure to assigned technical tasks.
- Received internship and course completion certificates for the AI/ML program.

Projects

Machine Learning-Based Pothole Detection & Road Monitoring System

- Built a real-time pothole detection system using YOLOv12 and OpenCV for images, videos, and live camera feeds.
- Developed a Flask dashboard with MySQL integration to visualize detections and store pothole location data.
- Presented research on YOLOv12-based pothole detection at ICIPETC-26.

Buildie – Civil Engineering Company Website

- Developed a responsive Flask website with admin login and dynamic project management pages.
- Used HTML, CSS, JavaScript, and SQLite; deployed the website using Netlify.

SafeHomefy – Home Service Booking Platform (Ongoing)

- Developing a full-stack service booking platform using React.js, Tailwind CSS, Node.js, and MongoDB.
- Building role-based authentication, worker dashboards, service requests, and booking management features.

Student Dashboard

- Built a responsive dashboard for course management, assignment tracking, and attendance calculation using HTML, CSS, and JavaScript.
- Implemented input validation and Local Storage persistence; deployed via GitHub Pages.

Skills

Languages: Python | Java | C | PHP | JavaScript | TypeScript
Frontend: HTML | CSS | React.js | Tailwind CSS
Backend: Flask | Node.js | Full-Stack Development
Database: MySQL | SQLite | MongoDB
AI/ML: Machine Learning | Deep Learning | YOLOv12 | OpenCV
Testing: Playwright | Test Automation | API Testing | Web Testing
Tools: Git | GitHub | VS Code | Conda | Netlify
Concepts: Data Structures | OOP | Version Control | Computer Vision

Courses and Certifications

Internship Completion Certificate Sep 2026
AI & ML Program – EDU TANTR

Course Completion Certificate Sep 2026
AI & ML Program – EDU TANTR

ICIPETC-26 Certificate of Participation Mar 2026
Carmel College of Engineering and Technology
